Ed and Ted are brothers. Ed is eight and Ted is ten. They love running around and playing exciting games.

Two years ago they lived in a house with a small garden and they could not play the games they liked. Their parents took them to the park where they could play. The park was far from their house.

Then the family moved to a new house with a very big garden. It was full of trees and tall grass. The brothers were very happy because they could hide in the grass and play games. "The garden is not nice and the grass is very tall," said their mother. "We must tidy it up."

One day the brothers came home and saw that the garden was tidy with nice flower beds. "No more games," said the brothers. The brothers were sad. "Don't be sad," said their father. "I will show you what we have found." The brothers followed their father and saw a surprise. A little wooden house stood at the bottom of the garden. It was there all the time, but they couldn't see it because of the tall grass. "It will be our Indian house," said the brothers.
